

Individual Club Clinics at The Legends of Massillon

A golf lesson designed to focus on the weakest link or club rather than improving on what you already do well. Stop hitting your favorite club on the range! If it's not broke don't fix it! What club is holding you back?

(All lessons will be held at the Legends of Massillon on Monday nights from 6:00-7:00 pm)

April 5, 2010: The Driver - Are you getting the most distance from the tee?

April 12, 2010: Irons - Drills to ensure consistent contact and distance control.

April 19, 2010: Sand Wedge - Learn to get it up-and-down from the sand, rough and the dreaded 50-yard shot.

April 26, 2010: Putter - Speed or Direction? I'll tell you which is more important, as well as how to read a green correctly to eliminate those annoying three-putts.

Cost: \$100 for all four lessons or \$30 for each To Register call Doug @ 330-412-2320
