

## **Don't Groove Your Junk! Brush Up on Your Basics!**

This series of three lessons is designed to ensure sound fundamentals. Did you know 90% of all errors occur before the club even starts its motion? If your basics are not sound then it is safe to say you already hit a bad shot before you even start. Aren't you tired of hitting buckets hoping a GOOD swing will show up? DON'T Groove Your Junk!

This course is not just designed for the beginning golfer, but the experienced golfer who did not realize the importance of an established pre-shot routine. At the end of the three lessons, you will have a better understanding how your setup position relates to your golf swing and a established set routine that will correct mistakes before they occur. I Guarantee it or your next lesson is FREE!(You must enroll in all 3 classes).

(All lessons will be held at The Legends of Massillon on Saturdays from 8:00-9:00 am)
